GLOSSARY

Under each budget book page there are a number of standard headings and accounting terms used. The following list gives a brief description of the wording:

Band D

The Council Tax band used as a base for the calculation of Council Tax.

Budget

A statement of the Council's plans for net revenue or capital expenditure over a specified period of time. The annual budget is prepared as part of the Annual Council Tax setting process. The budget, once approved, is an instrument of delegation which is used to authorise, monitor and control expenditure (and income).

Capital Charges

Services, which are delivered by utilising an asset owned by the Council, are subject to a charge for depreciation. The depreciation charge is an estimate of the loss in value of a fixed asset due to age, wear and tear or obsolescence over a period of time.

An accounting adjustment is made to remove these charges from the budget when calculating the Council Tax levy.

Capital Expenditure

Expenditure incurred on the purchase, alteration or improvement of a fixed asset during the accounting period.

Collection Fund

A separate account to record the income and expenditure collected from Council Tax and Non Domestic Rates.

Employee Related Expenditure

Includes gross salaries and wages of all employees along with the employer's national insurance and superannuation contributions. It also covers the indirect employee expenditure of staff advertising, interview and training expenses and, where appropriate relocation expenses.

Fees and Charges

Fees and charges are levied on a wide range of services, from car parks to planning applications. Discretion in pricing policy is available in some areas, for example, the Council is able to vary car park charges as an aid to traffic management. Income from fees and charges has a direct impact on the level of Council Tax. Financial regulations require that all scales of charges or other levels of income shall be reviewed not less than annually, with a view to at least off setting the effects of inflation.

General Fund

The total cost of services of the Council except for the Housing Revenue Account and Collection Fund. The day to day spending on services is met from the fund.

Government Grant

Covers all general and specific grants given by the Government departments.

Housing Revenue Account

A separate account to the General Fund recording all the transactions relating to the provision of council houses.

Income Receivable

Revenue income is received from a variety of sources including other local authorities/bodies, users of facilities, tenants and purchasers of goods and services.

Local Council Tax Support Scheme

In April 2013 Council Tax Benefit, the current means of helping people on low incomes meet their Council Tax obligations, was replaced by new localised support schemes.

Minimum Revenue Provision

The minimum amount which must be charged to a revenue account each year and set aside as provision for repaying external loans and meeting other credit liabilities.

Parish Precepts

The amount of Council Tax income that Parish Councils need to provide their services.

Premises

Covers expenses directly related to the running of premises and land. Therefore, the costs of repair, alterations and maintenance of buildings, fixed plant and grounds are included, along with all utility costs, rent, rates and fixtures and fittings.

Recharge to Services

Charges levied for services provided by one service division within the Council to another.

Reserves and Balances

Amounts of money that are held at the end of the year, after allowing for all the expenditure and income that has taken place. Some of these amounts are earmarked for specific purposes.

Revenue Expenditure

Expenditure on the day to day running of the Council, for example, wages and salaries, non domestic rates, heating and lighting.

Supplies and Services

Broadly includes all other expenditure not covered by the above headings. Thus such items as equipment, furniture, materials, printing, stationery, telecommunications, computer costs, subscriptions and other miscellaneous expenses are included in this heading.

Support Services

These are the charges for the support given in the provision of services to the public. The main examples of support services are accountants, auditors, cashiers, solicitors, payroll, human resources and customer service staff.

Third Party Payments

Covers payments made to an external provider in return for the provision of a service eg. leisure centre operators. When the service provided relates to, for example, building repairs or catering, the payment would be recorded in the appropriate grouping mentioned earlier i.e. premises related, supplies and services.

Transfer Payments

This covers payment made for which no goods or services are received in return by the Council eg. rent allowances.

Transport

Includes all direct transport costs along with recharges from the Council's fleet vehicles and staff travelling allowances.

Description

The Council aims to make the environment within the district cleaner and a more pleasant place to live, work and visit. Street Scene Services are responsible for ensuring the streets are clean, litter bins are emptied and customers take responsibility for their own actions and contribute to keeping the district free of litter, dog fouling, graffiti and fly posting.

Street Scene Services have recently introduced some changes to this service to try and improve value for money through the introduction of schedules and routes and designated litter bin collection routes.

These changes are the start of a programme of development in the service area – on-street recycling litter bins, a programme of litter bin replacement, consultation on the introduction of dog control orders and the development of an environmental crime education programme.
