Who we are

SKDC is the Data Controller for the personal information we collect via the Public Space CCTV system. Personal information can be anything that identifies and relates to a living person.

Why we collect your personal information

SKDC has installed CCTV (Closed Circuit Television) cameras in various locations throughout the District for the purposes of reducing crime and disorder, anti-social behaviour and the fear of crime by helping to provide a safer environment for all.

In all locations, signs are displayed notifying you that CCTV is in operation and providing details of who to contact for further information about the scheme.

The main purposes of the CCTV system is to provide the Police and enforcement agencies with assistance to detect, deter and prevent crime

and disorder; to help identify, apprehend and prosecute offenders; to provide the Police/Council with evidence to enable criminal and/or civil proceedings to be brought in the courts; and to maintain public order.

The legal basis for using your information

The General Data Protection Regulations (GDPR) and the Data Protection Act 2018, states we must have a reason to collect and use your information.

The CCTV system was established under Section 115 of the Crime and Disorder Act and operates within the legislation requirements of such a scheme.

Public task: the processing is necessary for the Council to perform a task in the public interest or for our official functions, and the task or function has a clear basis in law.
