

# Industries Permitted under Part B of the Environmental Permitting (England & Wales) Regulations 2010

South Kesteven District Council  
*Your council working for you*

# Environmental permitting regulations

Local Authorities are required to regulate certain types of industries to reduce air pollution and improve air quality. The legislation used consists of The Pollution Prevention & Control Act 1999 and Environmental Permitting (England & Wales Regulations) 2010 which together govern Integrated Pollution Prevention and Control and Local Authority Pollution Prevention and Control.

Pollution from these industrial sites is controlled by means of a permitting regime whereby emission standards and controls are enforced through inspection of the facilities. A list of these activities requiring a permit can be found in Part 2 of Schedule 1 of the Environmental Permitting (England & Wales) Regulations 2010.

## Permits

Operators of those activities listed under the above regulations must obtain a permit before they can operate. Application forms can be obtained by either contacting the Environmental Protection Team on Tel: 01476 406080 or emailing [ehs@southkesteven.gov.uk](mailto:ehs@southkesteven.gov.uk)

## List of activities currently permitted
