REVIEW OF POLLING DISTRICT, POLLING PLACES AND POLLING STATIONS 2023

PROPOSED POLLING ARRANGEMENTS – OCTOBER 2023

Current Parliamentary Constituencies:

- Grantham and Stamford
- Sleaford and North Hykeham
- South Holland and the Deepings

Future Parliamentary Constituencies (from next General election):

- Grantham and Bourne
- Rutland and Stamford
- South Holland and the Deepings

South Kesteven District Council – Review of Polling Districts and Polling Places 2023

Schedule of proposed polling arrangements

1. Introduction

1.1. Scope of the review

This review will consider the polling district boundaries and designated polling places across South Kesteven. This review will not consider changes to the district boundary, Parliamentary constituency boundaries or ward boundaries.

1.2. Reason for this review

The Council is responsible for reviewing polling districts and places for the Parliamentary constituencies within its boundary. These boundaries and polling places are also used for local elections. The Council is required to undertake compulsory reviews every five years. The Council is required to complete the next compulsory review between October 2023 and January 2025.

The Boundary Commission for England has published the final recommendation for the future Parliamentary constituencies and these new revised constituencies will come into force at the next General election. The next General election must take place by January 2025 and it is therefore necessary to undertake the compulsory review now to ensure the most suitable polling places are designated.

1.3. Methodology

We must comply with certain requirements when conducting the review:

- We must ensure that there is a separate polling district for each
- We must seek to ensure that all electors have such reasonable facilities for voting as are practicable
- So far as is reasonable and practicable every polling place should be accessible to electors who have a disability
- A polling place must be designated for each polling district, unless the circumstances of a polling district are such that the location does not materially affect the convenience of the electors
- The polling place should be an area in the district, unless circumstances make it desirable to designate an area wholly or partly outside the district
- The (Acting) Returning Officer must comment on the existing and proposed arrangements and allocate electors to polling stations.
- The Electoral Commission recommends that no more than 2,250 electors are allocated to a polling station.
- Consideration of ward and polling district boundaries and that they are reasonable accessible, following natural boundaries, have transport links, and avoid barriers such as steep hills, major roads, railway lines or rivers where possible. More information about the way polling place reviews are conducted, including how to appeal a review, can be found on the Electoral Commission's website

1.4. Terminology

A **polling district** is the geographical area created by sub-dividing a constituency or ward.

A **polling place** is the building or area in which a polling station is located.

A **polling station** is the actual room or area where voting takes place.

Schedule of proposed polling arrangements

1.5. Review timetable

Event	Date
Publication of the notice of review	2 October 2023
Publication of (Acting) Returning Officer’s proposals	6 October 2023
Consultation opens	6 October 2023
Consultation closes	27 October 2023
Changes to polling places and districts implemented	1 December 2023

1.6. Making Representations

Consultation will take place from 6 October 2023 until 27 October 2023. Information on how you can make comments on the proposals and suggestions for polling places will be published on the Council’s website www.southkesteven.gov.uk/pollingreview2023.

We would welcome comments regarding the current or proposed arrangements. If you disagree with a proposed polling place it would be helpful if you suggest an alternative venue that you think the Council should consider along with the reasons why you think this is a better option.

We would particularly encourage any comments about the accessibility of polling station voting to voters with any type of disability, either at specific polling places, or in general.

The Council is required to publish any representations made during the course of the review.

You may request a paper copy of the consultation documents by emailing elections@southkesteven.gov.uk or writing to: Electoral Services, South Kesteven District Council, Council Offices, The Picture House, St Catherine’s Road, Grantham, NG31 6TT.

2 Current and proposed arrangements

2.1 Polling district references

The current polling districts include references to the Parliamentary constituencies with the suffix of ‘1’ used to indicate the current Grantham and Stamford constituency, ‘2’ for the Sleaford and North Hykeham constituency and ‘3’ indicates the South Holland and the Deepings constituency.

New parliamentary constituencies will be implemented at the next General election which must be held by January 2025. As a result it is proposed, as part of this review, that the polling district references for some districts will be changed to reflect the new constituencies. The proposals included below propose changes to indicate the new constituencies with the suffix ‘1’ for the new Grantham and Bourne constituency, ‘2’ to indicate the new Rutland and Stamford constituency and ‘3’ retained for the South Holland and the Deepings constituency.

No changes are proposed to the boundary of any polling districts.

2.2 Proposed polling place arrangements

Any proposed changes to a polling places are detailed in the schedules below. For many polling districts the current polling places are considered the most appropriate locations and venues however a small number of changes are proposed. Comments on both the current and proposed polling places are welcomed as part of this review.

DEEPING ST JAMES WARD

Current Polling District and Parish (Proposed polling district if change proposed)	Current Parliamentary Constituency (Future Parliamentary Constituency)	Lincolnshire County Council Electoral Division	Current Polling Place	Polling Station Electorate (excluding postal votes)	(Acting) Returning Officer Comments and recommendation
DJA3 - Deeping St James No.1 Part of the Deeping St James parish (Refer to Appendix for list of streets)	South Holland and the Deepings (South Holland and the Deepings)	Deepings East	Deeping Community Centre, 2 Douglas Road, Market Deeping, PE6 8PA	2111	The Deeping Community Centre serves as the polling place for the Deeping St James polling district DJA3 and for part of the Market Deeping area. The polling place is busy at all elections with one polling station located in the main hall and one in the Atrium room, providing a clear separation of the two areas. Although located just outside of this polling district, it is convenient for electors registered in this polling district. No change proposed at present time.
DJB3 - Deeping St James No.2 Part of the Deeping St James Parish (Refer to Appendix for list of streets)	South Holland and the Deepings (South Holland and the Deepings)	Deepings East	Deeping St James Community Primary School, Hereward Way, Deeping St. James PE6 8PZ	2674 (2 polling stations)	See below for comments. Propose to relocate to: The Deepings Methodist Church, Church Street, Deeping St James, PE6 8HF

(Acting) Returning Officer comments on any proposed changes

DJA3 – The current polling station electorate for this polling district is 2111. Electoral Commission guidance recommends that a polling station should not have more than 2,250 electors allocated to it. The electorate in this polling district will be kept under review with an additional polling place being considered in the future.

DJB3 – The Deeping St James Community Primary School has served as the polling place for this polling district for many years, with the exception of the 2021 elections when it was temporarily relocated to the Methodist Church during Covid measures. Due to the large number of voters registered in this polling district, there are two polling stations at this polling place. Two alternative venues in the area have been considered during this review:

- The Deepings Methodist Church, Church Street
- The Open Door Baptist Church, Spalding Road

South Kesteven District Council – Review of Polling Districts and Polling Places 2023
Schedule of proposed polling arrangements

Whilst both venues offer good facilities for use as a polling place, the Deepings Methodist Church is considered to be the most suitable venue. The Open Door Baptist Church has a suitable room which could be used with off-road car parking however the gravel car park/entrance and the busy Spalding Road could potentially be problematic at a high turnout election with cars entering and leaving the premises via the single car entrance throughout the day. In addition there is no permitted on-street parking on Spalding Road due to the close proximity to the Deepings School.

The Methodist Church provides level access, off road car parking with two entrances plus on-street car parking on Church Street. It is therefore proposed that the polling place for polling district DJB3 be relocated to the Methodist Church, Church Street, Deeping St James.

Initial observations/comments received

Councillor Ashley Baxter, resident and Councillor for Market and West Deeping Ward: With regard to Deeping St James (where I am a resident), if ever you did have a problem with the venue(s), I would recommend you consider the Open Door Church on Spalding Road and/or the Deepings Methodist Church on Church Street. However, election days in the Deepings seem fine as they are, and it's quite handy having two polling stations in the one building.

Acting Returning Officer comments on any proposed changes

A change is proposed to the polling district code for GAC2 to take account of the future change of Parliamentary constituency for this area which will be included in the new Grantham and Bourne constituency together with the other parts of the Ward.

Initial observations/comments received

Councillor Paul Stokes: In terms of Grantham Arnoldfield I feel that the 2 polling stations, at the tennis club and school, work very well. The facilities, location and car parking form 2 centres in the middle of two halves of the ward. I also feel that the polling district works well as Grantham Arnoldfield.

No change proposed (see further comment below)

(Acting) Returning Officer further comments

GBA1 – The suggested alternative of the car park at the back of Tesco Express on the corner of Barrowby Gate and Winchester Road was investigated during the interim review conducted in 2022. At that time it was not possible to make contact with the owner of the site. The site is in a good location within the polling district and more central to than the Bowls Club. However further enquiries have been made of Land Registry records which show that access to the car park is required at all times by all business premises and flats on the site and their visitors. Siting of a mobile polling station would involve the majority of the car park being unavailable for a period of 3 days to allow for the siting on the day before an election and collection on the day afterwards. As a result this option cannot be pursued further. **It is proposed that the polling place for polling district GBA1 together with GBB1 remain at the Bowls Club. Suggestions of any other locations within the polling district would be welcomed.**

Initial observations/comments received

Councillor Gareth Knight: As I recommended in the last polling station review before I was a councillor I would like to put forward the car park at the back of Tesco Express on the corner of Barrowby Gate and Winchester Road as a suitable location for a mobile polling station to cover district GBA1. This is central to the polling district and it makes sense for this to be used given that the bowls club is up to 32 minutes' walk from some houses in the polling district. I believe the last time I suggested this everyone agreed in principle but the actual owner of the car park wasn't contactable so I hope efforts to trace the owner prove more productive this time around as it would be a far better location.

Acting Returning Officer further comments

GHA1 – The Church of the Ascension Hall was designated as the polling place in 2022 after being used at the 2021 elections during Covid measures and has now served as the polling place at two sets of elections. The Church Hall provides a large hall, with good access and car parking facilities. Previously electors in this polling district voted at Communal Room in Canterbury Close, which is situated on a fairly narrow road with a one-way system and limited number of parking pays. It is proposed that the polling place remain at The Church of the Ascension Hall.

GHC1 – The Church of the Ascension Hall was designated as the polling place in 2022 and successfully used as the polling place for the May 2023 District elections. Previously voters in polling district voted at Central Place Communal Room which although within the polling district it is located at one end of the polling district, on a cul-de-sac with only residents parking available. It is proposed that the polling place remain at the Church of the Asension Hall.

Initial observations/comments received

Councillor Ian Selby: It is my view that we should have a polling station at Central Place, as we have previously had in the past. My previous arguments remain the same. When this item goes to full council, I may propose a return of the Central Place polling station to support the many people in that area.

I do not have a problem with the other polling station being moved last time with to a very short distance from Canterbury Close to the Church of Ascension.

I have spoken to me fellow ward councillor, Cllr Chris Noon on the matter and he is in agreement with my view and I understand that he will acknowledge this view, following this email to yourself, for which I am copying him in.

Councillor Chris Noon: I am in full agreement with Councillor Ian Selby, especially in proposing a return to having a polling station at Central Place.
